

Economic Development: Development & Economic Activities (SELF-REVIEW)

Student's name	Class	Date
Now I've reached the end of the economic development unit		
	Yes	Think so
◆ I can explain why there is more to development than just wealth		
◆ I can identify, name and describe a variety of development indicators		
◆ I know the difference between economic and social indicators of development		
◆ I can give a variety of factors (Economic, Social, Political and Environmental) to help explain why some countries are more or less developed than others		
◆ I can describe the different ways that development has been mapped over the years and assess their validity (how useful is each method)		
◆ I know the different types of aid		
◆ I can explain why some aid projects are more sustainable than others		
◆ I can name an example of an Aid Project in an LEDC and explain how sustainable it is. (CASE STUDY Aid Project – Comic Relief or other example)		
◆ I know what is meant by primary, secondary, tertiary and quaternary industry		
◆ I can explain how employment structure differs between countries at different levels of development (proportion of primary, secondary, tertiary, quaternary)		
◆ I can explain how employment structure changed over time in a country (proportion of primary, secondary, tertiary, quaternary)		
◆ I can explain a variety of factors that explain the changing location of economic activities (LEDC CASE STUDY – Factors affecting the changing location of ICT (Tertiary and Quaternary industry to Bangalore India) (MEDC CASE STUDY – factors affecting the changing location of steelmaking (Secondary industry in the UK)		

I can explain what these terms mean:

Development *Indicator of Development* *GDP* *GDP Per Capita* *HDI* *PQLI*
 Economic Indicator *Social Indicator* *Brandt Line* *MEDC's* *LEDC's* *NIC's* *LDC's*
 Tied Aid *Bi-Lateral Aid* *Multi-lateral Aid* *Employment Structure* *Economic Activity* *Primary Activity*
 Secondary Activity *Tertiary Activity* *Quaternary Activity* *Offshore Activities* *Location Factors*

The parts of this topic that I need to revisit are:
