

## **The long wait is over as Wadebridge School students receive their results!**

We are delighted to be able to celebrate the success of the Class of 2018 who have achieved a strong set of results, with some individuals gaining outstanding grades. Our students have achieved these results in a time of great change and upheaval, with the majority of subjects now being awarded a grade of 9 to 1 rather than A\* to G for the very first time.

Despite this change, the increase in the number of exams taken and the inclusion of some AS Level material, students have gained the very top grades with Poppy Brown, Tom Cole and Josie Nuttall all gaining A\*s in Further Maths with Abigail Kaye gaining an A\* Distinction.

Other students who gained the very highest grade of a 9 / A\* include: Emily Campbell, Kerenza Carne, Tom Cole, Phoebe Crawford, Harry French, Lauryn Howard, Mary McWilliam, Josie Nuttall, Lola Polson, Bella Randall, Emily Reseigh, Evie Sander, Kate Scott, Sarah Shepherd, Hettie Thomas and Maggie Wild.

A special mention must go to Poppy Brown who achieved a grade 9 or A\* in all of the 12 subjects that she studied. This achievement will certainly mean that Poppy will be one of only a handful of students in the whole country who have gained this "full house". Well done Poppy!

A number of students were also awarded a Distinction\* in Health & Social Care: Jada Brittain, Lauren Chudleigh, Emilia Gikler and Tallulah Poustie all achieved this top grade.

This was always going to be a nervous time for our young people as they have had to face considerable changes in subject content, increased workload in their studies but also manage any personal or health issues that have arisen.

Despite these challenges our students have achieved excellent results and laid strong foundations for their journey into further education and/or training and can now celebrate with their families and friends. We are always very proud of our students and the fact that they grow and develop into successful young people and are not just focused on results and we wish them every success and happiness as they move on, whether that be to Wadebridge 6<sup>th</sup> Form or other avenues.
