

Fundamental British Values

According to Ofsted Fundamental British Values (FBV) are:

- Democracy
- The rule of law
- Individual liberty and mutual respect
- Tolerance of those with different faiths and beliefs.

A school's duty to promote FBV was introduced as part of SMSC education in March 2015.

Through the provision of SMSC/FBV we

- enable students to distinguish right from wrong and to respect the civil and criminal law of England;
- encourage students to develop self-knowledge, self-esteem and self-confidence;
- encourage students to accept responsibility for their behaviour, show initiative, and to understand how they can contribute positively to the lives of those living and working in the locality of the school and society as a whole;
- further tolerance and harmony between different cultural traditions;
- encourage respect for other people;
- encourage respect for democracy and support for participation in the democratic processes; and
- enable students to acquire a broad general knowledge of and respect for public institutions and services.
