

# Welcome to Wadebridge School

# Buddies

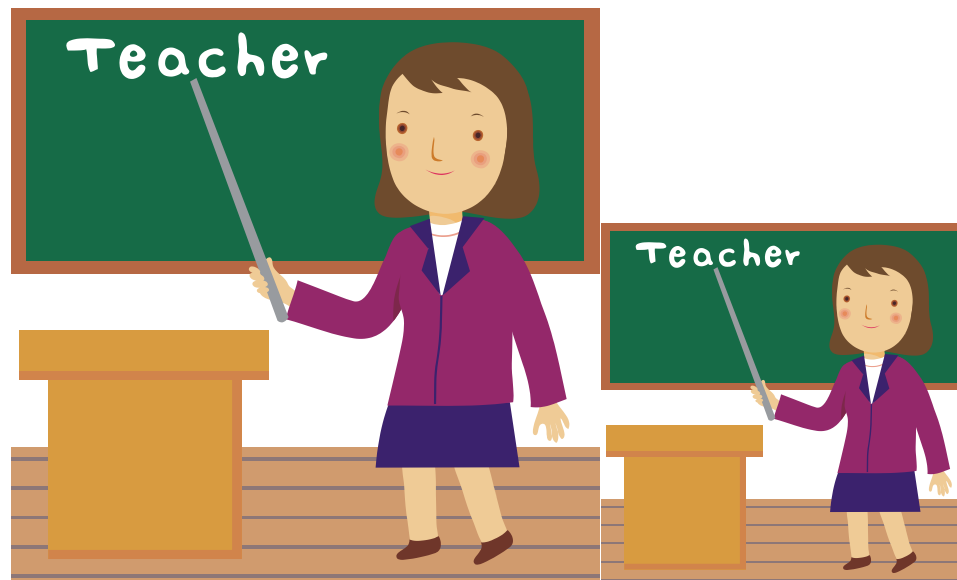

Joining a new school and learning your way around the school can be tricky there is never anything to worry about your whole class have buddies to guide you and help you learn your way. I would always advise to make friends also for when the buddies go you can find it together.

# lessons

There are 5 whole lessons a day. Each lesson lasts 1 hour and sometimes if you are not used to restraining yourself for that long it can be tricky to handle. This is nothing bad you're just learning the new turns of a bigger school.

# Pastoral support

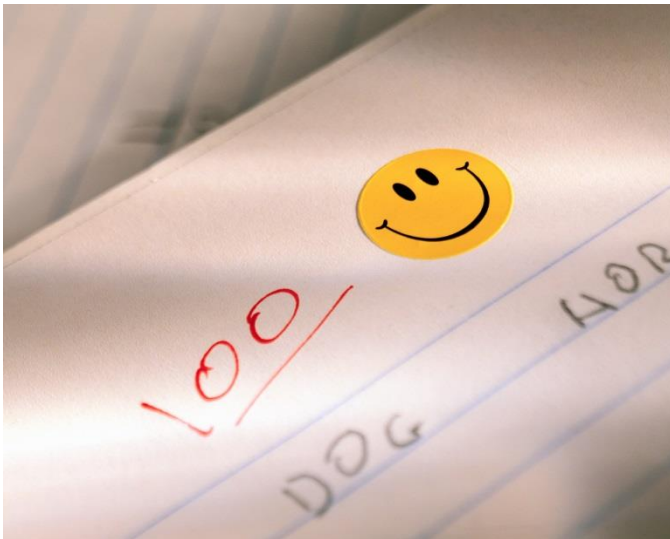

Pastoral support is set up to provide you with advice and help and try their best to support you through situations, they are there to help and if you think it is too daunting to tell a teacher there is empower which is year 10s. They sometimes pull you out of lessons and are the ones to tell you things.

# Homework

Homework is always to be handed in on the set date. Teachers will always be happy as long as the expectations are reached and homework is completed. Homework can be different features such as, written work, projects, model making, power point etc..

# worries

There is nothing to worry about when entering this school it is filled with lovely kind people and really supporting teachers. I came up to this school with only one other from my primary. It was lovely to have such a confident understanding form tutor who made it really easy to be yourself and blossom around others. Some struggle with making friends but there are many in the same situation and you have many interactive fun camps and activity's which are many made to bond with others and learn about them.

# sports

We have many activities after and in school in regards to sports and if you really shine will sometimes get the opportunity to go to par athletics, matches and so on. But if you don't like sports this is also a great school we have activities, fun groups and lessons.

# Roles

In school we have form captains, sports, pms, and many more. You are elected at the start of your school day and you have form every morning. You must always reach expectations otherwise you will have that opportunity taken away.

# Soon...

You will be moving up to Wadebridge school where you will have loads of fun and learning turns. Thankyou for listening.

This is our amazing head teacher Miss. Yardley
