The Science department at Wadebridge School is well resourced and consists of a committed team of ten teachers, three technicians and a subject specific HLTA who are supported and led by an experienced management team.

At Wadebridge we try to balance an unwavering focus on progress and achievement for all, with working tirelessly to support our young people in every aspect of their lives; standing alongside them to build the skills and strategies needed in order to remove barriers to their learning and/or social and emotional development. As a school we are committed to promoting the health and wellbeing of everyone in our school community and this starts with our staff: health and wellbeing is the number one priority on all our school improvement and professional growth plans.
