

Awarding 2021 Grades

*In summer 2021, exam boards will ask exam centres to generate, for each subject, teacher assessed grades for their students. These grades should be based on a range of evidence completed as part of the course, including evidence produced in the coming months, which demonstrates the student's performance on the subject content they have been taught. The grades submitted to exam boards must reflect a **fair, reasonable and carefully considered judgement** of the student's performance across a range of evidence, on the curriculum content that they have been taught.*

As part of their overall quality assurance, centres should consider the grades for this year's cohort compared to cohorts from previous years when exams have taken place. For centres with relatively large and stable cohorts, this historical data can provide a useful guide to the expected profile of results and enables centres to check that they have not been overly harsh or lenient in their assessment of the 2021 cohort compared to previous years.

[Ofqual, information for heads of centre, heads of department and teachers on the submission of teacher assessed grades: summer 2021](#)

This document outlines the evidence that will be used in each subject area, along with the total number of marks that are available and how much each piece of assessment, evidence contributes to the total. Where a student has missed or significantly under-performed in one assessment a compensatory mark can be awarded in line with the student's performance in other assessments. The total scores for each subject cohort will be anonymised and used in rank order to help determine grade boundaries to reflect the school's results in previous years, these grades will then be cross referenced with exam board guidance before the final grades are determined.

NB. these arrangements are subject to change following the publication of exam board guidance in March.

Total marks available		569 Marks	100%

- All Progress Checks will be considered as part of the Final Teacher Assessed Grades
- A compensatory mark will be given for an assessment opportunity that has been missed/adversely affected due to unavoidable circumstances. This mark will be calculated based on the student's performance across the other assessment opportunities in the corresponding year of study.
- All assessment opportunities use exam board materials.
- All assessment opportunities are internally marked and moderated
- Year 10 Diagnostic and Final assessment will only contain topic material covered outside of whole school lockdowns.
- Assessment topics will be shared with pupils prior to Diagnostic and Final Assessments.

Awarding 2021 Grades

PE Health and Fitness

Year 11
