

Consistent Excellence from Wadebridge 6th Form College

For the last 5 years the results of Wadebridge 6th form students have ranked in the top 20% of all schools nationally, and the class of 2019 are no exception! In fact this group of students have made even more progress than previous year groups and are to be congratulated on their hard work and commitment to their studies.

We are very proud of all our students, but this cohort have been excellent role models throughout their time at school and in the 6 form and we share in their excitement and trepidation as they move into the next phase of their lives.

Many students will be taking up their University courses, either in September or next year. Some are entering the world of work and Apprenticeships, but whatever they go on to do we wish them every success and happiness.
